

At the Apostolata Island Resort & Spa the safety of our guests, our staff and the society overall is a top priority for us. As a result, we closely monitor the recent data and developments regarding Covid-19.

Taking into account the ever-changing and difficult situation we are all experiencing, we remain fully committed to providing our guests with quality services.

By following the instructions of the authorities, we implement the certified programme *Health First* (Hellenic Ministry of Tourism).

**In order to create a safe environment for everybody, we have taken the following measures:**

- All the rooms and the public areas are intensively cleaned, according to the sanitation programmes.
- We train our staff with regard to all the necessary individual safety measures.
- We constantly keep our guests up to date about the precautions and the safety measures that must be followed.

**We would like to welcome you to Kefalonia once again!**

We are counting down the days until we meet again. Have a good summer!  
*Stay Safe.*

Please contact us, so that you can organize your stay, by sending an email to: *reservations@apostolata.gr* or by calling: *(0030) 26710 83581*.
